SUMMARY

MAIB (AI in Business) candidate at SP Jain School of Global Management, Dubai, with a B.Tech in Computer Science Engineering (AI & ML) and hands-on experience shipping end-to-end AI systems. Independently designed, built, and deployed production agentic AI platforms — spanning financial research, real-estate deal intelligence, AML/KYC compliance, and explainable car valuation — each live, tested, and running on real infrastructure. Also contributed to Lulu Sales Intelligence, a real-time retail analytics platform for a large UAE retailer. Combines applied ML/NLP engineering with business analysis and stakeholder communication, sharpened through a Machine Learning internship and cohort leadership as Class Representative. Targeting AI/ML Analyst roles in Dubai/UAE.

EXPERIENCE

Machine Learning Intern

Intelliza Solutions Pvt. Ltd. — Mumbai, India · Feb 2025 – Aug 2025

- Built a loan-advisory chatbot for a North America-based client — starting as an NLTK/spaCy + Tkinter prototype and evolving into a cloud-integrated system with a Flask backend and REST APIs, connected to a POS system covering loan request through collection management.
- Integrated location-based services for nearby branch and lender discovery, connecting NLP logic to a functional user experience.
- Reconciled task-tracking status across the team's workflow and documented AI/NLP functionality in business terms for non-technical stakeholders, supporting demo-readiness for internal reviews.

LEADERSHIP

Class Representative

SP Jain School of Global Management (MAIB Cohort) — Dubai, UAE · Oct 2025 – Present

- Serve as primary liaison between a global cohort of students, faculty, and administration on scheduling, attendance, assessments, and academic concerns.
- Apply public speaking and event-anchoring experience to host academic and cohort events in live, unscripted settings.

KEY PROJECTS

FinCopilot

Generative AI · Agentic RAG · FinTech

- Built an agentic RAG financial-research copilot (LangGraph, FastAPI, Next.js) with XBRL-grounded citations and a Self-RAG faithfulness gate; 205 backend tests, CI-gated evals, \$0/month hosting.

Sakan AI

Agentic AI · Real Estate · Dubai Market

- Designed a 5-stage multi-agent real-estate deal-intelligence pipeline (LangGraph, FastAPI, Next.js) with live WebSocket reasoning traces, Stripe billing and Arabic localisation; 85 passing tests.

ComplianceAgent

Agentic AI · RegTech · AML/KYC

- Built an AML/KYC investigation copilot with a from-scratch NumPy graph convolutional network for risk scoring and a mandatory human-approval gate; 80 tests (76% coverage), red-team suite 6/6 blocked.

AutoValuate

Computer Vision · Explainable ML · FinTech

- Shipped a damage-aware car-valuation app with an on-device YOLOv8/ONNX detector (0.732 mAP@0.5) and SHAP-explained XGBoost pricing; zero WCAG 2.1 AA violations.

ADDITIONAL PROJECTS

- MediFlow AI — RL that allocates ER beds, staff and equipment under uncertainty — balancing fairness and efficiency. (0.859)
- FraudShield AI — Sequence-aware fraud scoring that flags evolving patterns a rule engine misses. (LSTM / RNN)
- Lulu Sales Intelligence — Real-time, governed sales analytics across stores — streaming data to decisions. (10 stores · 3 regions)
- WaselX Express — Graph-based routing that turns last-mile delivery decisions into explainable, algorithm-backed comparisons. (15 nodes / 24 roads)

EDUCATION

Master of Artificial Intelligence in Business (MAIB)

SP Jain School of Global Management, Dubai, UAE · 2025 – Present

USD 9,000 merit scholarship recipient; Class Representative. Coursework: Deep Learning, NLP & Language Models, Software Development for AI, Databases, Corporate Finance, Marketing Management.

B.Tech, Computer Science Engineering (AI & ML)

Manipal University Jaipur · 2021 – 2025

Student Excellence Award and Brilliant Student Award — highest academic performance in B.Tech CSE (AI & ML).

TECHNICAL SKILLS

Machine Learning & Deep Learning

Machine Learning · Deep Learning · Predictive Modelling · Feature Engineering · Model Evaluation · XGBoost · TensorFlow · Keras · Neural Networks · Graph Neural Networks · Computer Vision (YOLOv8, ONNX) · SHAP / Explainable ML

NLP & Agentic AI

Natural Language Processing · Generative AI · Agentic RAG · LangGraph Multi-Agent Orchestration · Hybrid Retrieval (BM25 + Dense + Reranking, pgvector) · Self-RAG / Faithfulness Evaluation · Prompt Engineering · NLTK · spaCy

Engineering & Data

Python · SQL · MySQL · FastAPI · PostgreSQL · Docker · Git / GitHub · React / Next.js · TypeScript · Streamlit · WebSocket Streaming · Stripe Billing Integration · RBAC / Multi-Tenancy

Business & Communication

AI for Business · Business Problem Framing · Stakeholder Management · Market Research · Financial Modelling · Executive Presentation · Corporate Finance · Marketing Management

CURRENTLY PURSUING

AWS Cloud Practitioner · Power BI / Tableau · GenAI Developer pathways
